Compared to last week: The best test for yearling steers was for 700-749 lbs which sold fully steady. Unweaned steer calves were too lightly tested last week to develop an accurate market trend, however mostly lower undertones were noticed. Yearling heifers 700-899 lbs sold mostly steady to 2.00 higher, heavier weights of yearling heifers were too lightly tested to develop an accurate market trend, lower undertones were noticed. Unweaned calves were too lightly tested either this sale or last to develop an accurate market trend, however steady undertones were noticed. Demand for yearlings was mostly moderate while demand for calves was mostly light to moderate. Quality this week was average to attractive on all feeders on offer. Both calves and yearlings were coming out of dry country and were in light flesh. Buyers showed mostly significantly lighter demand for calves without preconditioning shots. CME positions were sharply lower today as all contracts saw triple digit losses. Market activity was mostly moderate today. Weigh up cows sold on mostly moderate to good demand for light to moderate offerings.
