Beginning January 4, 2021, the U.S. Department of Agriculture's (USDA) Agricultural Marketing Service (AMS), through its Livestock, Poultry and Grain Market News Division (LPGMN), will change the publication date of this report from Friday to Mondays. This will provide a true weekly average price (Sunday through Saturday). Currently, LPGMN utilizes cattle auction sales data from Friday through Thursday to compile this report. LPGMN will transition the publication date from Friday to Monday. By changing the publication to Monday, LPGMN will capture additional sales that occur at auctions on Friday afternoons and Saturdays, utilizing sales data from Sunday to Saturday, to capture a true weekly average price for feeder cattle.

The updated Livestock Summary will offer customers additional data to use in an evolving and competitive marketplace. You can access feeder cattle summary reports at: www.ams.usda.gov/market-news/feeder-and-replacement-cattle-summary. If you would like to learn more about MARS and My

Compared to last week: Steer calves under 550 lbs unevenly steady, over 550 lbs 3.00 to 7.00 higher, heifer calves steady to 3.00 higher, except 600-650 lbs 4.00 lower. Good demand for steer and heifer calves. Many longtime weaned calves in the offering, which are highly desirable and they look very appealing as the cattle are clean, bloomy and shiny. The weather remains very mild and open, much warmer than normal which is allowing cattle producers to keep their cattle at home growing and gaining easiliy. Cash fed cattle market continues to disappoint as early week sales were lower and CME Live Cattle contracts for Dec remain below 110.00. Very large auction receipts expected when feeder cattle sales resume after the start of the new year. Supply included: 100% Feeder Cattle (65% Steers, 34% Heifers, 1% Bulls). Feeder cattle supply over 600 lbs was 52%.
