Calves weaned longer than 45 days are left untagged

Compared to last week: Yearling steers and heifers were too lightly tested to develop any market trend. Unweaned steer calves weighing less than 400 lbs sold Steady to firm. 400-649 lbs sold 10.00-20.00 lower. Yearling heifers were too lightly tested to develop an accurate market trend, however lower undertones were noticed. Unweaned heifer calves under 400 lbs sold fully steady; over 400 lbs sold 2.00-4.00 lower. Demand for all feeder cattle was light to moderate. Quality this week was average to attractive. Calves continue to sell out of extremely dry country and are light fleshed and lightweight as a result. CME positions sold off sharply early in the week and buyers adjusted prices to fit lower breakeven reflective of lower live cattle contracts. This coupled with higher grain prices created sharply lower prices this week. Calves preconditioned with two rounds sold with the best demand and sold with an $8.00-10.00 premium over calves with only spring vaccinations. Market activity was mostly slow to moderate today despite a large crowd and many buyers ringside. Weigh up cows sold on mostly light to moderate demand for heavy offerings. Cow quality this week was mostly average and better overall compared to last week. Many cows continue to be in very thin to thin flesh. Feeding cows sold mostly 2.00-4.00 lower on breaking flesh cows and steady to 2.00 higher on boning and lean cows. Slaughter cows sold steady to firm. Yielding conditions were slightly better this week and cows offered buyers better weigh up conditions as well. Slaughter bulls were too lightly tested to develop an accurate market trend, steady undertones were noticed.2-3 year old cows suitable to rebreed sold mostly 5.00 lower. Quality was plain to average. Supply included: 64% Feeder Cattle (56% Steers, 44% Heifers, 0% Bulls); 27% Slaughter Cattle (96% Cows, 4% Bulls); 9% Replacement Cattle (72% Stock Cows, 28% Bred Cows). Feeder cattle supply over 600 lbs was 8%.
