Livestock Weighted Average Report for 4/11/2023 - Final

AUCTION

	This Week	Last Reported 4/4/2023	Last Year
Total Receipts:	827	499	0
Feeder Cattle:	529(64.0%)	245(49.1%)	0(0.0%)
Slaughter Cattle:	114(13.8%)	99(19.8%)	0(0.0%)
Replacement Cattle:	184(22.2%)	155(31.1%)	0(0.0%)

Compared to last week: Feeder cattle were all too lightly tested last week to develop an accurate market trend, however higher undertones were noticed on steers; heifers under 550 lbs sold with sharply higher undertones, heifers over 550 lbs sold with higher undertones. Quality this sale was mixed from plain to attractive. Demand was mostly good to very good for light offerings. Flesh conditions were mostly light this week, with lots of hay fed cattle that were developed for grass. Higher CME feeder cattle prices provided support to the light cattle market as many of these offerings will be backgrounded or turned out on grass. Market activity was mostly active this week, despite light offerings. Weigh up cows sold on mostly good demand for light offerings. Slaughter cows sold mostly steady to 2.00 higher in a narrow comparison. Major packers and local packers continue to be very aggressive as they fight over limited offerings. No cows were purchased to feed last week, however this week demand for feeding cows was very good. Feeding cows are not well compared this week. Slaughter bulls sold on good to very good demand this sale. Slaughter bulls sold steady to 1.00 higher. Feeding bull buyers pushed lower quality or light weight bulls higher again this week. As a result, low dressing bulls saw the biggest upswing in price. Cow and bull quality was average to attractive this week. Weigh up conditions were average this week, but better compared to last week. Young age cows comprised a large portion of the sale this week. The best demand was seen for coming 2-4 year old cows which lost calves. Many of the coming 2 year old offerings out sold what that would have brought last fall as yearlings. Young age cows sold mostly 8.00-12.00 higher. Supply included: 64% Feeder Cattle (42% Steers, 55% Heifers, 3% Bulls); 14% Slaughter Cattle (77% Cows, 23% Bulls); 22% Replacement Cattle (100% Stock Cows). Feeder cattle supply over 600 lbs was 47%.
