Compared to last week: Yearling feeder steers were too lightly tested to develop an accurate market trend, however higher undertones were noticed. Unweaned steer calves sold steady to 10.00 higher in a narrow comparison. The best test for yearling heifers was 800-849 lbs which sold firm and 900-949 lbs which sold mostly 2.00 lower; all other weights of yearling heifers were not well compared. Unweaned heifer calves were too lightly tested last sale to develop any market trend. Quality this week was average to attractive for yearlings and mostly average for calves. Calves with 2 rounds of preconditioning shots sold on significantly stronger demand than calves with only one round of shots. This led to large price spreads at times. Calves are mostly in light flesh despite coming straight off the cow. Yearlings were in mostly light flesh as well with the exception of a few packages which were coming out of the feedlot. Market activity this week was mostly moderate. Weigh up cows sold on mostly light to moderate demand and light offerings. Slaughter cows sold mostly steady to 2.00 lower on boning and lean cows, breaking cows sold steady to 2.00 higher. The best demand for feeding cows was for fleshy breaking cows. Demand did improve late in the day as several buyers attempted to fill loads. Slaughter bulls sold mostly 4.00 lower. Cows and bulls were very full throughout todays sale offering buyers mostly below average weigh up conditions. Cow quality this week was mostly plain to average with lots of thin cows in the sale. Young age re-breed type cows were lightly traded again this week. Steady undertones were noticed in a narrow comparison. Quality was mostly average this week. Supply included: 82% Feeder Cattle (50% Steers, 0% Dairy Steers, 49% Heifers, 0% Bulls); 14% Slaughter Cattle (91% Cows, 9% Bulls); 4% Replacement Cattle (90% Stock Cows, 10% Bred Heifers). Feeder cattle supply over 600 lbs was 45%.
