Special Note: ***Calves weaned longer than 45 days are left untagged***

Compared to last week: Yearling steers and heifer were too lightly tested last week develop an accurate market trend, however sharply higher undertones were noticed on both steers and heifers. Yearling quality was very attractive this week. All yearlings were coming straight off grass and offered buyers good weigh conditions. Steer calves all sold steady to firm. Heifer calves under550 lbs sold steady in a narrow comparison, heifer calves over 550 lbs sold steady to 3.00 higher. Demand was mostly moderate to good this week. Quality was average to very attractive, and significantly higher than last week. Most weaned cattle were weaned over 45 days this week and many were of attractive quality. Market activity was mostly active as a good buyer pool was on hand for todays sale. Weigh up cows sold on mostly moderate demand and light offerings. Slaughter cows were too lightly tested to develop a full market trend, steady to firm undertones were noticed. Most cows returned to feed as packers continue to buy cows to put away for the upcoming Thanksgiving holiday. These cows were most thin and would normally go to slaughter. High quality feeding cows purchased to feed to premium white sold with steady undertones. Slaughter bulls were too lightly tested to develop any market trend. Young age cows suitable to feed or rebreed sold5.00-8.00 lower in a narrow comparison. The best demand continues to be for high quality rebreed type cows. Quality was not as attractive as last week. Supply included: 92% Feeder Cattle (52% Steers, 47% Heifers, 1% Bulls); 5% Slaughter Cattle (94% Cows, 6% Bulls); 2% Replacement Cattle (89% Stock Cows, 11% Bred Cows). Feeder cattle supply over 600 lbs was 41%.
