Calves weaned over 45 days are left untagged

Compared to last week: Yearling steers and heifers were too lightly tested to develop an accurate market trend, steady undertones were noticed. Unweaned steer calves sold mostly 3.00-6.00 higher. Unweaned heifers 500-549 lbs sold mostly 3.00-5.00 lower, all other weights of heifer calves were too lightly tested to develop an accurate market trend, however steady undertones were noticed. Quality on yearlings was mostly average, while quality on calves was average to very attractive. Demand for both yearlings and calves was mostly moderate. Both calves and yearlings were coming out of dry country and were in very light to light flesh. Preconditioned calves with fall vaccinations sold with the best demand. Market activity was mostly active today with a large crowd and many buyers ringside bidding on offerings. Weigh up cows sold on mostly light to moderate demand for moderate offerings. Cow quality this week was mostly plain to average and significantly lower than last week. Many cows were very thin as both poor range conditions and suckling calves combined to pull cows' body condition scores lower. Many cows selling this week were shells and buyers did not want to risk feeding this type offering. Feeding cows sold unevenly steady. Breaking flesh cows continue to sell with the best demand. Slaughter cows sold mostly 2.00-4.00 lower, however on a dressed basis cows sold near steady as yielding conditions were significantly lower this week compared to last. Slaughter bulls sold steady to 2.00 higher as feeding buyers pushed packers over limited offerings. Weigh up conditions were mostly average to below average this week on both cows and bulls.2-3 year old cows suitable to rebreed sold sharply lower this week. Quality was plain to average with many very thin cows on offer this week. Supply included: 73% Feeder Cattle (62% Steers, 37% Heifers, 0% Bulls); 16% Slaughter Cattle (90% Cows, 10% Bulls); 11% Replacement Cattle (95% Stock Cows, 5% Bred Heifers). Feeder cattle supply over 600 lbs was 10%.
