Special Note: ***This report will not be published next week. Next report will be released June 8th 2021***

Compared to last week: Steers and heifers were all too lightly tested to develop an accurate market trend, however steady undertones were noticed on like quality offerings. Quality this week was mostly plain to average. Demand was mostly moderate for light offerings. Market activity this week was slow to moderate. Weigh up cows comprised the majority of the offering this week. Packers continue to be aggressive as they purchase cows. Packers opted to put the majority of the cow offering on feed this week. Many cows were purchased to put on a holding ration until shackle space becomes available. Packers also purchased high quality cows suitable to feed to premium white. Quality this week was attractive to very attractive. Heavy supplies of cows continue to be offered up as ranchers cull cows which aren't raising calves or have yet to calve. Weigh up conditions were mostly in buyers favor this week as most cows coming off grass were slicked off and very empty. Both slaughter and feeding cows sold fully steady. Slaughter bulls sold steady to weak. Young age cows suitable to feed or rebreed sold steady to firm. Quality this week was average to attractive. Demand for cow-calf pairs was mostly light as ranchers continue to show concern over both drought conditions and higher feed prices. Supply included: 29% Feeder Cattle (56% Steers, 41% Heifers, 4% Bulls); 47% Slaughter Cattle (87% Cows, 13% Bulls); 25% Replacement Cattle (68% Stock Cows, 29% Cow-Calf Pairs, 2% Heifer Pairs). Feeder cattle supply over 600 lbs was 96%.
