Special Note: ***No sale next week. Next scheduled sale is July 13th***

Compared to last week: Steers and heifers were all too lightly tested to develop an accurate market trend, however higher undertones were noticed on both steers and heifers. Demand was mostly good for very light offerings. Quality was mostly mixed from plain to attractive. Cattle were mostly in light flesh and mostly coming off grass. Dry conditions continue to drive feeders to market which had been turned out on grass. Market activity was moderate to active this sale. Weigh up cows comprised the majority of the sale again this week. Packers purchased cows on moderate demand this week. Slaughter cows sold fully steady on boning and lean cows, breaking cows sold 2.00-3.00 lower. Feeding cows took the biggest hit this week as packers backed off and purchased high quality cows lower. Feeding cows sold mostly 2.00-5.00 lower. Packers seemed willing to buy slaughter cows at steady money in order to fill last minuet slaughter spots before the holiday break. Cows quality was not as attractive this week compared to last. Additionally, cows were pushing heavier amounts of fill this week compared to last week. Slaughter bulls sold mostly 1.00-3.00 lower. Young age cows suitable to feed or rebreed sold steady. Several sets of attractive 3 year old cows sold on very good demand as buyers pushed these offerings at the same price as 2 year old offerings. Demand for cow calf pairs remains light as drought conditions continue to weigh on the market. Supply included: 18% Feeder Cattle (7% Steers, 79% Heifers, 14% Bulls); 54% Slaughter Cattle (83% Cows, 17% Bulls); 28% Replacement Cattle (76% Stock Cows, 21% Cow-Calf Pairs, 3% Bulls). Feeder cattle supply over 600 lbs was 94%.
