Compared to two weeks ago: Yearling steers were all too lightly tested to develop any market trend. Yearling heifers sold unevenly steady. Steer quality this week was mostly plain, while heifer quality was average to very attractive. Several sets of replacement heifers sold again this week. Most of these offerings have been turned out with the bull, however all consigners offered to abort the heifers at their expense. Most of the heifers on offer were purchased to feed. Demand for feeders was mostly good to very good for light offerings. Market activity was mostly active. Weigh up cows sold on mostly moderate to good demand for light to moderate offerings. Packers showed mostly good demand for cows for immediate harvest. Slaughter cows sold steady to 1.00 higher. Demand for feeding cows remains good as well. Feeding cows sold mostly steady to 1.00 higher. Cow quality this week was mostly average to attractive. Weigh up conditions were average to below average this week as hot temperatures reaching 109 degrees were seen today. Slaughter bulls sold steady to 1.00 lower. Bull quality was not as attractive as last sale. Most bulls have been turned out breeding cows and body conditions and yields are starting to slide. Young age cows sold on mostly moderate demand and light offerings. This class of cows saw increased demand this week as southern replacement buyers looking for fall rebreed cows are starting to put in orders. Supply included: 50% Feeder Cattle (21% Steers, 78% Heifers, 1% Bulls); 41% Slaughter Cattle (77% Cows, 23% Bulls); 9% Replacement Cattle (56% Stock Cows, 34% Cow-Calf Pairs, 10% Heifer Pairs). Feeder cattle supply over 600 lbs was 91%.
