Special Note: ***No sale next week. Next sale will be July 14th 2021***

Compared to last week: Feeder cattle were too lightly tested either this week or last week in any particular weight group to develop an accurate market trend, however steady to higher undertones were noticed on both steers and heifers. Quality this week was mixed from plain to attractive. Demand was mostly moderate to good. Several sets of unweaned calves sold this sale as drought conditions are driving calves to market. Demand for unweaned calves was light to moderate. Market activity this sale was mostly moderate to active. Weigh up cows comprised most of the sale again this week. Packers showed stronger demand for feeding cows this week following last weeks decline. Feeding cows sold mostly 1.00-2.00 higher, with instances of 3.00 higher seen at times. Packers showed really good demand for breaking flesh cows for immediate harvest as they search for fat to blend down the lean cows which are being marketed out of drought areas. Breaking cows sold mostly 2.00-4.00 higher. Boning and lean cows sold steady to firm. Slaughter bulls sold steady to1.00 lower. Young age cows suitable to feed or rebreed sold mostly 3.00 lower. Demand for these offerings was mostly moderate. Cow calf pairs were of mostly plain to average quality this week and many pairs split as it was more advantageous to the seller to sell the cow and calf separately. Supply included: 28% Feeder Cattle (32% Steers, 60% Heifers, 8% Bulls); 57% Slaughter Cattle (84% Cows, 16% Bulls); 15% Replacement Cattle (100% Stock Cows). Feeder cattle supply over 600 lbs was 76%.
