Special Note: \*\*\*Beginning January 4, 2021, the U.S. Department of Agriculture's (USDA) Agricultural Marketing Service (AMS), through its Livestock, Poultry and Grain Market News Division (LPGMN), will change the publication date of this report from Friday to Monday. This will provide a true weekly average price (Sunday through Saturday). Currently, LPGMN utilizes cattle auction sales data from Friday through Thursday to compile this report. LPGMN will transition the publication date from Friday to Monday. By changing the publication to Monday, LPGMN will capture additional sales that occur at auctions on Friday afternoons and Saturdays, utilizing sales data from Sunday to Saturday, to capture a true weekly average price for feeder cattle.

The updated Livestock Summary will offer customers additional data to use in an evolving and competitive marketplace. Due to the holidays not enough sales to establish a market trend as most auctions were closed over the last week. Supply was light and demand was light to moderate. If winter weather doesn't complicate transportation next week is historically the largest volume week of the year. Barns and buyers are eager to get back to business after a week or two off. Many farmers use this as well as the fact it is a new tax year to market livestock. As of last Thursday's reports boxed beef cutouts were mixed. Choice closed up 2.41 at 209.95 and select was down 2.28 at 195.65 compared to Wednesday prior to Christmas. Feedlot sales were higher for the last week of the year. As of Thursday afternoon reported volume was just over 71k head of negotiated sales for the week with some more possibly taking place after hours. Compared to the week prior live sales were reported from 110.00-112.00 which was steady to 4.00 higher and dressed sales from 175.00-176.00 which was 3.00-4.00 higher. Last Thursday's Missouri Stocker Formula consisted of 208 head with a weighted average weight of 554.63 and a price value of 152.62, up 1.16 compared to last Friday. Supply included: 73% Feeder Cattle (73% Steers, 23% Heifers, 3% Bulls); 9% Slaughter Cattle (2% Steers, 85% Cows, 14% Bulls); 18% Replacement Cattle (1% Stock Cows, 66% Bred Cows, 18% Bred Heifers, 14% Cow-Calf Pairs). Feeder cattle supply over 600 lbs was 75%.
