Compared to last week: Steer and heifer calves too lightly tested to allow a good, solid comparison. Yearling feeder steers and heifers6.00 to 8.00 higher. Moderate demand for this limited offering of spring born calves, fewer farmer feeders present this week. Very good demand for these long strings of yearling steers and heifers, many full loads and multiple load lots. The market was not as active for calves as there were few strings of calves, mostly just small packages. Buyers are very selective, especially when it comes to preconditioning status as the up and down temperatures, and now wet pen conditions, make those calves a higher risk for a breakout of respiratory disease. The yearling market was very active as the quality was and flesh conditions were attractive. Plenty of buyers actively bidding on these yearlings. CME Live and Cattle futures made big gains today which helped spur the feeder market higher. Slaughter cows steady to4.00 lower, bulls steady to 3.00 lower. Supply included: 89% Feeder Cattle (46% Steers, 54% Heifers); 11% Slaughter Cattle (88% Cows, 12% Bulls). Feeder cattle supply over 600 lbs was 83%.
